### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance. The prior art made of record in the attached form PTO-892 considered to be pertinent to the submitted application.

2. Kandori US # 6,946,808 discloses a sensorless motor having plurality of stator coils, inverter as a drive switching circuit. Kandori teaches :

- A sequence circuit 5 that feeds a preset signal PR to the preset circuit 11. On receiving the predetermining signal PR the preset circuit 11 feeds the starting logic state Y1-Y3 to the drive waveform generator circuit 14;
- A decoder 10 stores relationship between resistor values R1-R6 and the rotor position before the starting of the motor. The decoder 10 feeds the preset circuit 11 with a starting logic states in the form of combination of individual logic states Y1-Y3 that corresponds to the rotor position before the starting of the motor;
- The coil common-terminal variation detection comparator 7 compares the common-terminal voltage CT of the stator coils with a detection level output from the detection level generation circuit 8, and outputs their differential signal Co to the register 9.

However, none of the prior art teaches or suggests claimed limitations in combination with:

- Matching-pattern detection circuit adapted to determine whether or not the result of comparison matches any one of predetermined detection logic patterns;

Art Unit: 2837

- Generating a start-up logic in accordance with position specified by matching detection logic pattern;
- Varying the detection reference voltage and cause the sequence circuit to generate further rotor position detecting signal to repeat detection of the rotor position;

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rita Leykin whose telephone number is (571)272-2066. The examiner can normally be reached on Monday-Friday 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lincoln Donovan can be reached on (571)272-1988. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
